Natural Gas Perspectives – Rio 2019

Charlie Cracknell & Sandy Basler

Connecting the Global Energy Industry

Gastech
Exhibition & Conference
17-19 September 2019
Houston, Texas

dmg :: events

- Global database of over 1,000,000 oil & gas contacts
- We host over 40 energy events on an annual basis
- Active in 5 continents
- Suite of print and digital media covering the global oil & gas market
- dmg energy offices in London, Calgary, Houston, Dubai, Abu Dhabi, Singapore, Johannesburg, India, Tokyo and Seoul & Egypt
- dmg Global Energy hosts 3 of the top 4 oil & gas events

Brazil Gas Market

Gastech
Exhibition & Conference
17–19 September 2019
Houston, Texas

Global forecasts form consensus that natural gas & LNG will play an **increasingly vital role** as a source of energy worldwide, Brazil gas market overview are that:

NATURAL GAS SUPPLIES UP: The Brazilian Ministry of Mines and Energy (MME) Gas Statistics Report shows that the average Brazilian domestic natural gas (NG) supply in 2017 reached 60.46 million m³/day, up from an average of 52.40 mm³/d in the previous year.

LNG EXPORTS TO BRAZIL: To complement the domestic NG consumption in 2017, Brazil imported from Bolivia and LNG through the three existing LNG regasification terminals. The U.S. was the third largest LNG exporter to Brazil in 2017, following Nigeria and Angola. Other suppliers included Qatar, France, and Trinidad Tobago.

IMPORT TRENDS:

The domestic gas from Brazil's prolific pre-salt fields (PSF) is considered a potential future competitor for LNG imports;

Brazil needs to find a way to bring its gas to the market, but until then there are opportunities for LNG exports to Brazil.

Brazil LNG imports are expected to rise again in the early 2020s, when the country's first long-term sale and purchase agreement to supply the CELSE LNG-to-wire project starts. Additionally, recent energy auctions and NG fired power plants under construction suggest a need for LNG over the next years.

Gastech is...

Gastech
Exhibition & Conference
17-19 September 2019
Houston, Texas

The world's largest meeting place for the upstream, midstream and downstream global gas & LNG industries

40+
YEARS

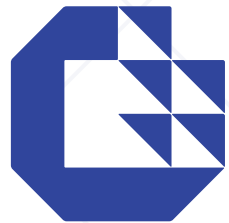

At the forefront of the international gas & LNG market

Held in different strategic global gas production and consumer market locations

Organised by the industry for the industry

Gastech

35,000 Attendees come to Gastech to...

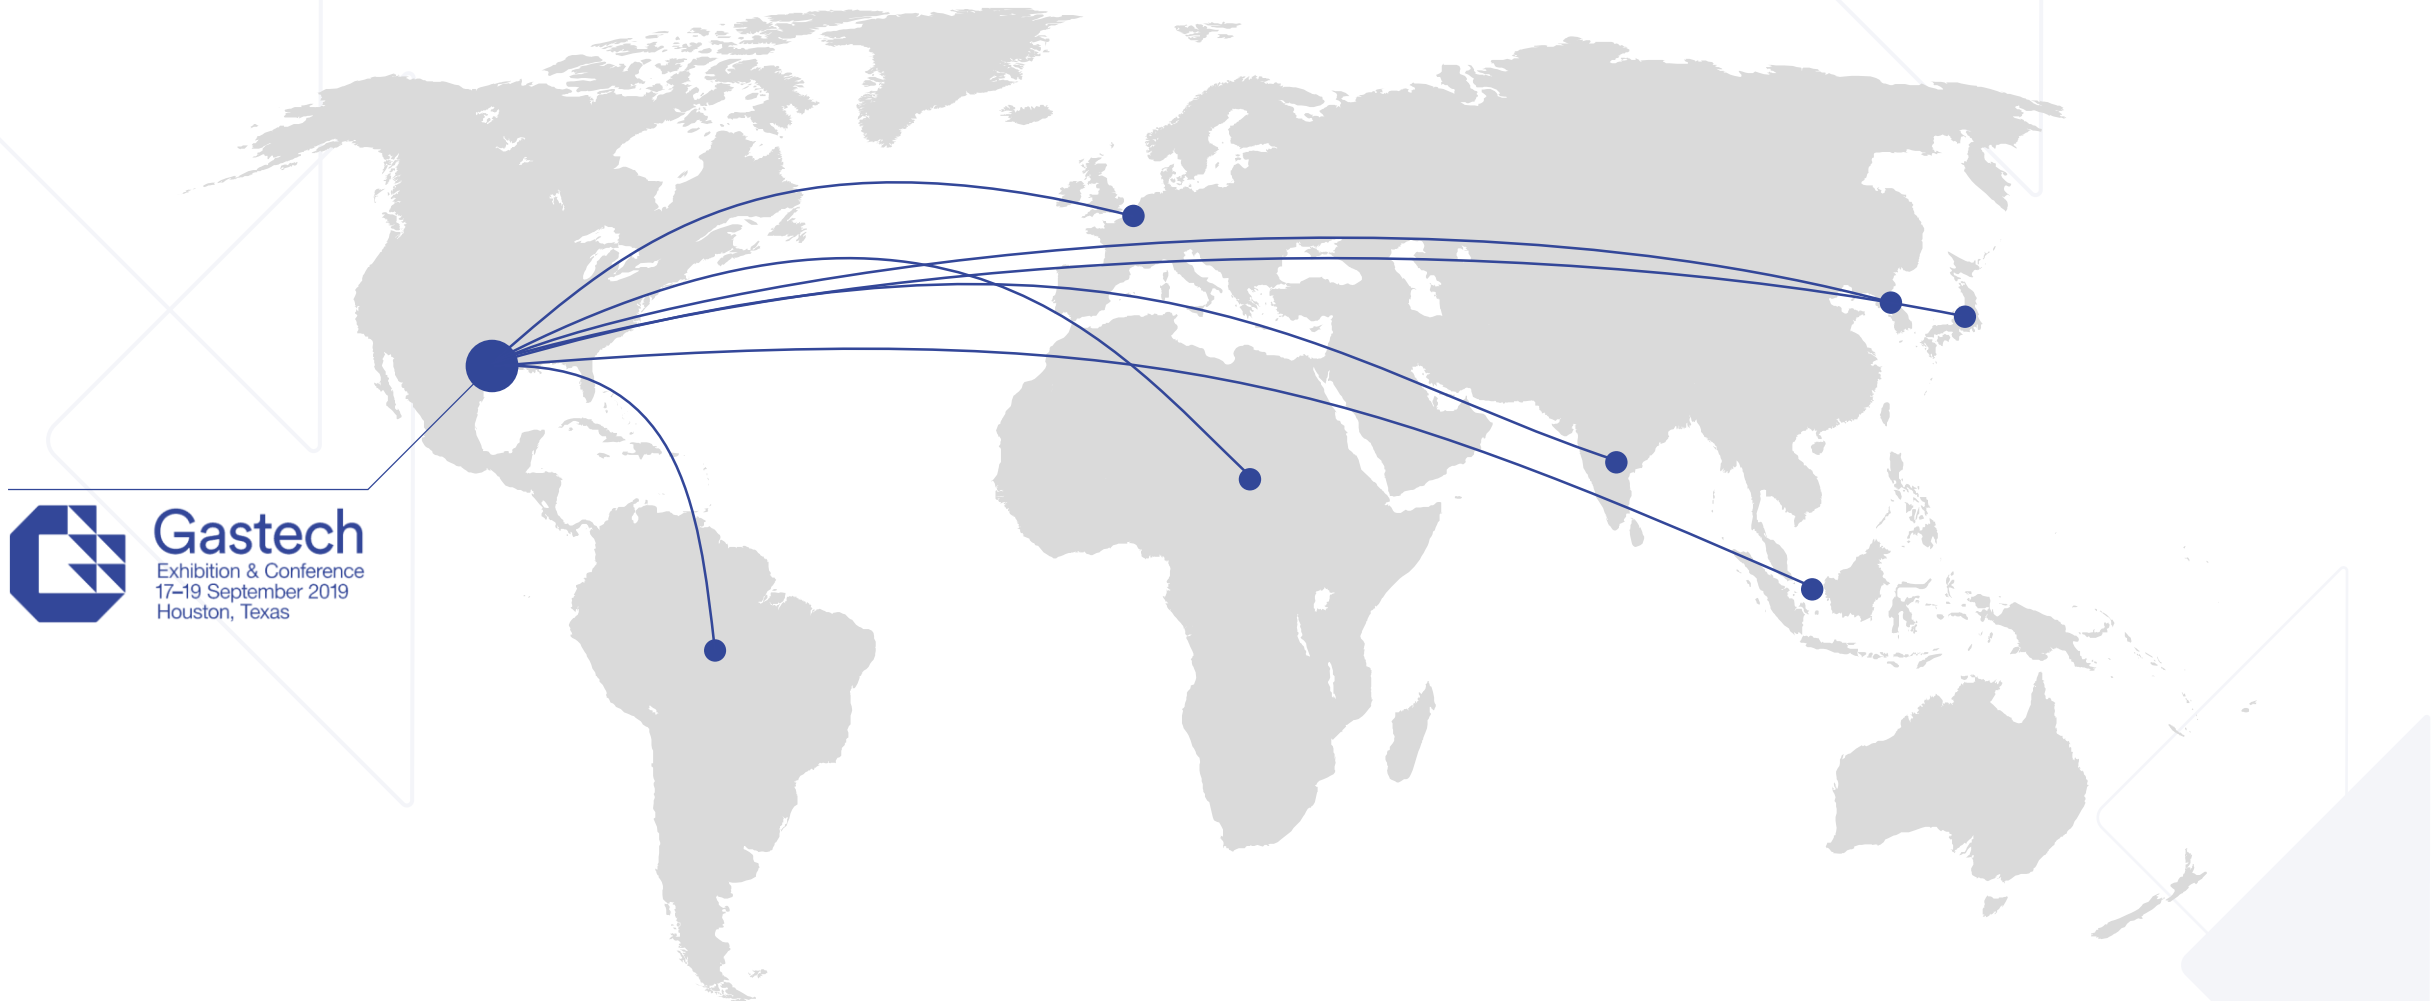

Gastech Moves West for 2019

Gastech
Exhibition & Conference
17-19 September 2019
Houston, Texas

Hosted in the **heart** of the West's gas & LNG **demand epicentre**

Gastech
Exhibition & Conference
17-19 September 2019
Houston, Texas

A Trusted Brand for over 47 Years & 31 Editions

History of Gastech

Gastech has been at the forefront of the gas and LNG business for more than four decades, with each edition being supported by a host partner since 2002.

2019 Houston, USA

2018 Barcelona, Spain

2017 Tokyo, Japan

2015 Singapore

2014 Seoul, South Korea

Covering the Complete Value Chain

Gastech
Exhibition & Conference
17-19 September 2019
Houston, Texas

UPSTREAM

Exploration & production of natural gas

Shale gas production technology & services

Enhanced & advanced technology for improved hydrocarbons recovery

Gasfield services & management

Health, safety, security & environment for E&P

MIDSTREAM

Processing, production & liquefaction of gas, LNG & NGLs

Shipping & transportation of LNG & NGLs

Storage, terminals & regasification

Floating LNG & FSRU technology

Pipelines maintenance & integrity

DOWNSTREAM

Power generation & utilities technology

Transmission systems, operations & technology

Smart grids & digital services

End-user innovation for natural gas

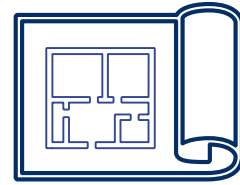

Natural gas vehicles - commercial & domestic use

Gastech 2019 in Numbers
